PEI Spring Steel Sheet Hotbed Sticker

PEI Spring Steel Sheet Hotbed Sticker is more durable than the original hot bed sticker. With the single side smooth hot bed facing up, it can also make the bottom of the print more smooth.

4-IN-1-OUT Non-Mix color hotend

The E4 hot end does not require all four filaments to be loaded simultaneously during printing, and its color prime tower size can also be set smaller than M4 hot end when printing multi color. About what's different between M4 hotend and E4 hotend, please refer to [here](#).
